The Research Master in Neuroeconomics at Maastricht University is a two-year, selective, internationally oriented and English taught program designed for excellent students who wish to continue their graduate studies in preparation for a career in research.

The Research Master in Neuroeconomics is a truly interdisciplinary endeavor and jointly organized by the Faculty of Psychology and Neuroscience (FPN) and the Economics Departments of the School of Business and Economics (SBE). Students will follow courses at SBE as well as FPN and will receive an in-depth training in quantitative theoretical and empirical methods in economics, game theory, and cognitive neuroscience as well as extensive hands-on training in all aspects of experimental and neuroscience research. The program combines methodological training with theoretical and experimental approaches from economics, psychology, and neuroscience to study human decisions in all its aspects.

Excellent research internship opportunities will be offered at Maastricht University as well as at prestigious universities and institutions in Europe and North-America.

The next program starts in September 2016. The application deadlines are 14 January 2016 (for scholarships and first round) and 31 March 2016 (second round). For more information please visit:
